As we all are aware our time is getting harder, chain of education is breaking, financial crisis is increasing because of this pandemic and still we are trying our best to create alternative ways by the aid of Science and Technology.

We are continuing with Online mode of teaching which includes tests, exams, co-curricular activities even the celebrations.

1. FROM THE PRINCIPAL'S DESK

**Mr. Praveen Yaragatti
(Principal)**

Greetings of the day everyone,

We are starting an Academic Year (2021-2022) with the new hopes. This year we have planned a lot of things with the strategies that help child for the holistic development. Whether online or offline we are not ready to break the chain of learning. Considering NEP also we are planning for teachers training.

“We must develop an environment that helps child to differentiate between the Right and Wrong. We think that defines one’s Education”

One must understand the importance of education especially Parents. If we have complete support from the parents then we can make the growth of a child to be very specific. When Parents will join their hands with the teachers then only we can mould the talents of each student. Till now we were never lacked of any support from parents. Thank you for the support and we expect the same everyday and every year.

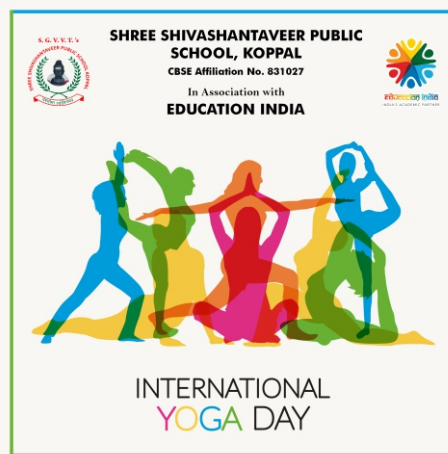

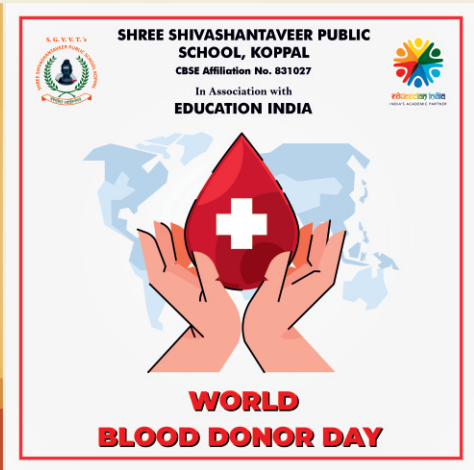

We will try our best to give the best environment that helps in the Holistic development of a every child.

Thank You.
