### PARENT'S TALK

**Mrs. Priti Gajesh Sancheti**

Hello,

I am Priti Gajesh Sancheti mother of Jaya Sancheti who is studying in grade 5 of Shree Shivashantaveer Public School. I am very happy with the school. The school is providing a particular environment to the children where they grow and learn something innovative. There is a well known saying that "Children are like clay, as we shape them they will grow in that way". Teachers are showing the right direction to children and helping them fly to the great height in world. The school is conducting extra-curricular activities, competition like hand writing competition, speech competition, essay writing competition and many more where my child learn different things and where many of her skills are improving. The bond between Teachers and Students is very comfortable where students are allowed to think outside the box and clarify the doubts.

Some part of the syllabus will be quite boring and teachers are making it interesting by teaching it with innovative ideas. Shree Shivashantaveer Public School is putting up their sincere efforts to bring out the best in the children in all the areas such as extracurricular activities, sports and academics. The school is not just providing them a bookish knowledge but teaches them how to deal with the outside world. No doubt School is awesome and the way of teaching is very practical. The teaching faculty and the school staff are very good and cooperative.

Thank You
